

HOW TO ORDER

100% Personalized Custom Headstones & Monuments

Rome Monument offers you unlimited possibilities for your eternal resting place by completely personalizing a cemetery monument just for you...and just the way you want! Imagine capturing your life's interests and passions in granite, making your custom monument far more meaningful to your family and for future generations.

Since 1934, Rome Monument has showcased old world skills and stoneworking artistry to create totally unique, custom headstones and monuments.

And because we cut out the middleman by making the monuments in our own facility, your cost may be even less than what other monument companies, cemeteries and funeral homes charge.

Visit a cemetery and you'll immediately notice that many monuments and headstones look surprisingly alike. That's because they are! Most monument companies, cemeteries and funeral homes sell you stock monuments out of a catalog. You can mix and match certain design elements, but you can't really create a truly personalized monument. Now you can create a monument you love and that's as unique as the individual being memorialized. It starts with a call to Rome Monument.

the Personalization Process

We don't use stock monument templates and old design catalogs to create your marker, monument, or mausoleum. We use your dreams and imagination combined with our design expertise to give you exactly what you want...just the way you want it!

STEP 1 SCHEDULE A MEETING

Schedule a meeting to discuss customization options at a showroom or via phone or internet from anywhere in the United States. A preneed consultation is ideal, since it includes the person(s) to be memorialized.

STEP 2 INITIAL CONSULT/DISCOVERY

During the consultation, talk freely about your interests in life, your passions. This woman was a traveler and fell in love with elephants. She wanted an elephant design incorporated into her monument.

STEP 3 INITIAL CONSULT/DECISION

Discuss options for artwork related to your passion. What will your memorial look like? This woman had a porcelain elephant on her shelf that had great sentimental value. Let's run with it!

STEP 4 INITIAL CONSULT/SKETCH

Now our designers have something to go on. We'll sketch out ideas until you see one you can't pass up.

STEP 5 DESIGN/CAD

Next, we take the concept and make it sing with a computerized rendering that shows exactly what the memorial will look like in the cemetery.

STEP 6 DESIGN/APPROVAL

Give us your approval to move forward...unless you'd like to make changes. No problem. No charge. We'll work on it till you absolutely love the design!

STEP 7 BUILD THE MONUMENT

After you select the style, stone, and color, our monument artisans go to work carving, cutting, engraving, etching, and sculpting until we've created the beautiful memorial you envisioned and are proud to display.

STEP 8 DELIVERY/INSTALLATION

We make arrangements with your cemetery to deliver and install the monument. We lay a solid concrete foundation or base to ensure the stability and longevity of your monument.

STEP 9 COME VISIT!

Be sure to visit your family monument often. You'll be proud of the unique memorial you helped create...and it will have a special place in the hearts of generations of family members to come!

As one of the largest monument firms in the United States, your monument from the design, to the creation, to the installation never leaves our care. Generations of families return time and again for the highest quality monuments and the sincere compassion that our locally-owned family-run company has carried over from one generation to the next.

Michael Dioguardi
Founder of Rome Monument

Monument Manufacturing
Facility in Pittsburgh, PA

Rome Monument has produced four generations of monument builders since it was founded in 1934 by Michael Dioguardi, a skilled stone cutter from Rome, Italy. He was taught to do it the way it's been done for thousands of years - and even though technology has changed dramatically over the years, we still consider ourselves stonework artisans and sculptors and still pride ourselves in our exquisite custom carved monuments.
